PG DEPARTMENT OF COMMERCE EXTENSION ACTIVITY

Awareness classes for women

Our students need more opportunity to practice specific skill, which leads to better retention. When students are more engaged in the learning process, more motivated, and have received more individualized assistance. To excel beyond the standard learning goals of the course, our department adopted a practice that to take Awareness classes for women's groups.

Women empowerment will lead to an improvement of socio-economic conditions of the society. Their inclusion in society generally remains a challenge, especially their financial inclusion. So, the main objective of the practice is to improve the quality of life of women by providing basic classes regarding new technologies like mobile banking, online shopping, ATM use etc. Most of our students are from remote area. so our department recognized an opportunity to extend our service to such areas. The direct interaction between students and women's promote active learning and also helped them to receive more time for individualized learning.

The students in our department are directed to take classes for women's groups in their area. They are asked to take classes related to new technologies like mobile banking, online shopping etc. Students prepare their classes and presented it before them through SHG's and other small groups. The classes are arranged in evening and also in holidays. They gain a deeper understanding of a topic by teaching it to women's group in their area. This practice will improve the student attitude towards learning and helps to gain confidence and sharpen their skills.
