## SEMINAR REPORT

A certificate course on 'Gender Equality and Legal Awareness' was held from 10 am to 2 pm on 26/02/2021 in the college auditorium. Dr. V.V. Georgekutty Principal presided. In his presidential address, he drew the attention of the audience to the idea of women empowerment which is one of the targets of JPM college. Being the children of a migrant population girls have to be aware of the opportunities that are before them, which have been denied to their parents. "Carpe diem"...Seize the day – get hold of the opportunities, utilize them and make your parents proud, by achieving economic empowerment thereby becoming harbingers of change in a fast changing world, where change is the only constant. Ms Minimol Thomas H.O.D Economics dept. welcomed the audience. In her keynote address Adv. Sr. Regi traced the beginning of the concept of gender equality by differentiating between 'gender and sex'. The speaker spoke at length on the history of the evolution of the idea of women's emancipation. She referred to the Bible of women's emancipation- Mary Wollstonecrafts "Vindication of the Rights of the women". She mentioned the industrial revolution and the economic and social impact of the above and how it had a tremendous effect on the lives of the women. The labour saving devices brought, greater spare time and women entered the labour force. And how it thoroughly changed woman, it gave her economic independence and it was this that made the invisible women visible.

The session started with the discussion on the difference between gender and sex. Gender is a social construct but sex is biological. Society sets labels and levels on the basis of your gender. A man is always the ruler or the authority. They are taught to be strong they can be angry but can't cry. But according to the social norms women are weak, depending on man. A family always prefers a son and daughters are considered a liability. The dowry system even though prohibited by law still exists and that makes parents think that girls are a liability. The name of the family continues through the male. The major share of family property is given to sons. Educationally and financially men are far ahead of women. The only plus point of having a daughter is emotional support and old age support. Even in classes boys are given more attention than girls. Boys are comparatively given more pocket money than girls.

Sometimes women don't get equal pay for same job as man. Even at their jobs they are marginalized. The patriarchal system in our society supports men. The session further discussed measures about bringing gender equality in our society. Women should be given more opportunities for education. The violence against women should be addressed by law. The session further discussed about the legal provisions to ensure the equality of both genders. United Nations and Indian Government created many laws. Article 14 of Indian constitution states that everyone is equal before law but our society is far from transcending to a level of equality. She stressed for a paradigm shift, where boys and girls are brought up equally and treated equally. About 150 students participated offline. The session came to an end by 2 pm Ms. Sulu P. Thampi Dept. Of Computer Science proposing a Vote of thanks.
